

Note: Seminars are free to attend (with purchase of Fair entry)

Date: All Seminars on Saturday, June 9th

1:00 PM: “Master File Creation & Workflow in Photoshop”

2:30 PM: “Photoshop: Control your Contrast and Color”

4:00 PM: “RAW Fundamentals for Photoshop”

5:30 PM: “Color Management 101”

Descriptions:

“Master File Creation & Workflow in Photoshop” – Discover the importance of a Master File for photographers, and its relationship to an effective workflow in Photoshop.

“Photoshop: Control your Contrast and Color” - What makes a good color print, and how do you use the basics of Photoshop to achieve your desired results?

“RAW Fundamentals for Photoshop” – Learn to properly optimize your camera’s RAW files before working on them in Photoshop.

“Color Management 101” – Proper Color Management allows you to accurately reproduce what you see on your monitor in printed form.

About John:

John Watts from **Watts Digital Imaging** is a photographic post-processing specialist who’s been privileged over the last 30+ years to work in printing partnership with some of the world’s finest photographers, both professional and serious amateur. John has now taken that expertise and applied it to the world of Digital Imaging Education, particularly as it relates to Photoshop, Digital Printing and Color Management for Photographers. His seminars and Meetups are widely attended, and always fun & educational. John is also a frequent judge for many prestigious photo contests, including the San Diego County Fair Photo Exhibition and the Orange County Fair Photo Exhibition. You can find out more about John and his services at his website, <http://www.wattsdigital.com/>.
