 - **Saturday, June 20th @ 7 PM:** “Judges’ Critique”
-

Seminar Descriptions:

- **“How to Color-correct your Images with Confidence”** - When it comes taking control of your color, you’ve got to know what you’re aiming for before you can properly use the available tools & techniques. *I mean, what IS color, anyway?* Get ready to find out, as we go over the basics of color theory, color correction & color management.
- **“Preparing Images for Fine Art Printing”** – This seminar is designed primarily for Photoshop users. It’s an overall review of the *process & suggested workflow* from original capture to print - focusing on the fundamental aspects of proper post-processing skills.

About John:

John Watts from **Watts Digital Imaging in San Diego** is a photographic post-processing specialist who’s been privileged over the last 40+ years to work in printing partnership with some of the world’s finest photographers, both professional and serious amateur.

John’s motto is, *“Serious Post-processing for Serious Photographers”*.

John has taken that expertise and also applied it to the world of Digital Imaging Education, particularly as it relates to Photoshop, Digital Printing and Color Management for Photographers.

His seminars and Meetups are widely attended, and always fun & educational. John is honored to be a frequent judge for many prestigious photo contests, including the San Diego County Fair Photo Exhibition and the Orange County Fair Photo Exhibition.
